

Ascom Office® M

On call at an attractive price

Increasing the mobility and availability of your staff will improve the productivity of your business. Combining powerful messaging and telephony, the Office M gives your personnel more freedom and your customers better service.

Direct access gives direct benefits

Office M is an elegant portable handset for retail, education and enterprise business environments that keeps your staff connected. Powerful messaging – text messages are visible even in the middle of a call – helps to keep your personnel up-to-date at all times. Furthermore, high quality voice facilitates immediate response and a more efficient use of time, even on the move. And with 11 pre-installed languages, not only is Office M a truly international solution, it also eliminates time wasting due to language confusion.

Packed with smart features

The Office M is packed with features that are designed to save time and money. The intuitive interface which includes time and date on-screen, means less training is required for the user.

Direct access to a centrally updated phone book, complemented by large Personal and Company phone books, prevents the frustration of dealing with out-of-date numbers. One key access to voice mail saves even more time. Hands-free and loudspeaker functions allow you to talk and work at the same time. Useful extras such as an alarm clock and calculator are there when you need them.

Making a real-life difference

Mobility is emerging as a core asset for successful businesses. Office M paves the way to greater flexibility and efficiency with features and accessories that address the needs of a variety of businesses at an attractive price. For more information on how an Ascom solution can benefit your enterprise, contact us at 877-71ASC0M.
